### **DAY 2 – Canadian Museum of Nature.**

The day 2 of the Ottawa short holiday package starts with a visit to the Canadian Museum of Nature tour. The first thing to note is the Scottish Baronial design of the Museum which, owing to its early construction in 1912, has a castle like facade. This museum is a kaleidoscope of the diverse nature of Canada. This massive museum consists of five floors, and diverse species of creatures in preserved form and skeletons of extinct species are showcased across the floors. You can view the skeleton of Dinosaurs, blue whale, and many Canadian mammals. The minerals and gemstones are also displayed in the museum. You may also sight the rare Canadian birds and different species of animals, here. Do not forget to ask to see the carnivorous Pitcher plant and the Marsh Blue Violet.

This gorgeous floral emblem of New Brunswick thrives in the wet habitat, and it is a prized possession of the museum.

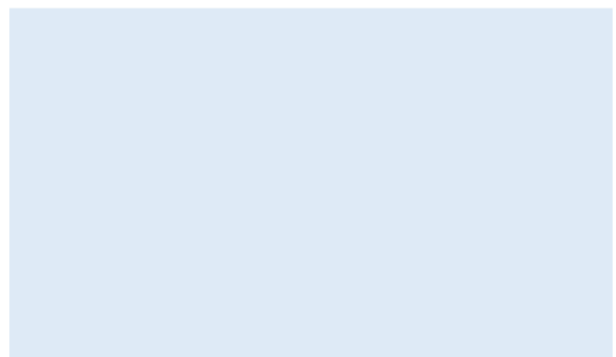

As you complete exploring the plants and animals' section of the Canadian Museum of Nature, move to the Canada Goose Arctic Gallery. Here you can understand in depth about the arctic landscape, climate, people, and intriguing wildlife. The gallery showcases authentic and unique specimens and artefacts. You may read about the items and peruse the multimedia presentation of the gallery offering an indigenous perspective of items showcased on your Ottawa weekend holiday. Indulge in the fun learning game and should you be travelling with children, encourage them to do the same.
